## **ECO-R-PET FILM TYPE 390 FORMING FILMS**

| Configuration                        | Ÿ  |
|--------------------------------------|--|
| Outside layers                       | Virgin PET-G, anti-blocking agents   |
| Middle layers                        | PET-A post-consumer recycled material  |
| Dimension                            | $\vdash\!$   |
| Nominal thickness value (mechanical) | 0.150 0.800 mm   |
| Nominal size value                   | ≤ 1,200 mm   |
| Tolerance                            | see General Terms & Conditions   |
| Physical properties                  |  |
| Color                                | colour-tinted transparent  |
| Density                              | approx. 1.32 g/cm³   |
| Shrinkage                            | ≤ 25 % (10 min at 140 °C, depending on film thickness)                             |
| Options on request                   | <b>O</b>   |
| Color                                | specified color according reference  |
| PE-protection film                   | one or both sides  |
| UV-protection                        | UV light transmittance (λ = 360 nm) ≤ 0.5 %  |
| AS-treatment                         | on both sides Surface resistance<br>≤ 10° Ohm (measured at 50 % relative humidity) |
| Field of application                 | $\leftrightarrow$  |
| Forming                              | all kinds (tool temperature ≥ 30 °C, Forming ≥ 120 °C)                             |
| Sealing, Welding                     | high-frequency, Ultrasonic (depending on medium)                                   |

## The product is in accordance with the regulations of:

- Commission Regulation EU 10/2011
- BfR Recommendation XVII
- Raw materials comply to FDA, Title 21 Part 177.1630 and supplementary regulation 21 CFR 177, 1315(b)(I)(USA)

All specified physical characteristics are indications. Deviations from the values given here are mostly due to technological reasons and not per se justifying the claim of the goods. All specified physical properties are only valid for a none-processed film. The assessment of the suitability of a film of FWG for the intended purpose is in customer's responsibility.

DATASHEET ECO-R-PET Film TYPE 390 FORMING FILMS
